Actuaries

 **Chicago, Illinois, United States + [8 more](#)**  **250 - 1,000 employees**  **Other Industries industry**  **Public company**
 **\$20.00 Per hour**  **Paid**

The Actuarial Practice of Oliver Wyman is seeking to hire an actuarial intern for Summer 2022 to support our life insurance business in the following offices: Atlanta, Boston, Charlette, Chicago, Hartford, Kansas City, New York, Seattle, and Toronto. In your cover letter, please indicate your office preference. This individual will have the opportunity to work alongside and learn from Oliver Wyman's industry leaders and experienced consultants, and gaining broad industry exposure with Oliver Wyman's clients, which include insurance companies, investment banks, law firms, state regulators, and private equity firms. The candidate will be expected to use his or her analytical skills within a team environment to analyze complex problems and develop workable solutions.

Specific tasks may include:

- Create and analyze financial projections in the support of M&A due diligence, capital market transactions, life and annuity product development or industry presentations
- Compile data, develop spreadsheet exhibits, perform basic analysis, and summarize internet research

Qualifications:

- Working toward Bachelor's or Master's degree in Actuarial Science, Mathematics, Statistics, Finance or a related field
- Prefer one or more actuarial exams passed
- Professional experience preferred
- Strong technical knowledge (MS Excel, MS Access or another database software, VBA or another programming language)
- Strong written and oral communication skills
- Ability to quickly process and learn new concepts

Oliver Wyman is committed to the principles for equal employment opportunity and complies with all relevant federal, state, and local laws.

JOB ROLES

Actuaries

OLIVER WYMAN ACTUARIAL CONSULTING

The Actuarial Consulting Practice of Oliver Wyman is a rapidly growing consulting practice that's committed to building a dynamic environment full of individuals who share a passion for delivering results to clients. We provide actuarial consulting services to public and private enterprises, self-insured group organizations, insurance companies, government entities, insurance regulatory agencies and other organizations.

Oliver Wyman's Actuarial practice helps clients manage property & casualty, life and health care risks across a broad range of industries. The Actuarial practice assists with quantification of risk and loss exposure. Additionally, we provide advice on external business strategy, internal risk management, implications of mergers & acquisitions and new product development.

Our consultants provide independent objective advice; combining a broad range of expertise with specialized knowledge on specific risk segments, continuously researching methods for evaluating, measuring, and reporting on risk, and providing clear, timely, non-technical communications in the three primary areas of risk – Property & Casualty, Life & Health Care.

The work you will do here has real impact. We offer challenging work with excellent opportunities for professional and personal advancement that encourages the development of actuarial thought leaders. Our goal is to provide opportunities for our employees to learn and grow during every step of their careers.

OPEN ACTUARIAL POSITIONS

At Oliver Wyman, our success stems directly from the quality of our talented people. We have opportunities for individuals eager to put their talent and knowledge to work in a stimulating environment that rewards excellence. We believe in developing our business by developing our people. We offer a

dynamic actuarial consulting environment which combines the challenges and diversity of consulting while encouraging growth and advancement.

Review our open actuarial positions in the health, life, and property and casualty industries. *
